

## Remembering Nano

*In this moment...*

We remember Nano

looking around and listening carefully to what is happening for others and for the earth  
in our own “small corner of the yearning world”<sup>1</sup>

We remember Nano

allowing the hurt and hardship to disturb us and drive us  
to help life lift itself up and shine its own light,  
fully and freely

We remember Nano

changing direction to be true to ourselves  
and our own heart’s leading

We remember Nano

letting go of comfort, certainty and security to share the good  
that life has offered us

We remember Nano

overcoming obstacles that prevent us from responding adequately to need

We remember Nano

coming close enough to share our stories  
and gently touch and tend each other’s wounds

We remember Nano

embraced by the love of family and the companionship of community  
growing stronger, and more ourselves, together

We remember Nano

energised by the ever-active Love that we call God

We remember Nano

connecting with people around the world,  
Presentation people, one community, us,  
reaching out “in faith,  
in a spirit of hospitality, compassion and simplicity  
to all of creation”<sup>2</sup>

God of here and now, of always and everywhere

May we be energised by Nano’s faith, courage and commitment to people and life,  
striving in our living and learning together to create a just, healthy and harmonious world.

Amen
