

Remembering Nano

26 April

In this world time
of trial and torment,
of fleeing and fearing,
of burying and birthing...

we remember Nano,
beginning where we are,
aware of others and their needs,
disturbed by their hurt and their hardship,
driven to do something practical,
enabling all people to lift themselves up into life,
listening, learning, inviting, including, welcoming, sharing, holding, hoping,

and in so doing,
letting love flow through us, into the world,
where it meets the love of others,
drop by drop till overflowing...

God of here and now, of always and everywhere,
may we be energised by Nano's loving faith, courage,
compassion and commitment to people and life,
striving in our living, learning and working together
to create a just, healthy and harmonious world.

Amen
